

Progress Report on the Construction of Girl's Orphanage

of **Children's Home**

Construction Site – Khokana VDC,
Lalitpur, Nepal

February 2006

Girl's Orphanage - Project Background

Children's Home has commenced its construction of the Girl's Orphanage in Kathmandu Valley after purchasing land that is suitable for the upbringing of its children.

It is in the suburban area of Lalitpur district, walking distance to the local market.

The environment of the proposed construction site is very suitable as it is open and surrounded by picturesque greenery.

Its need was felt gravely as the orphanage is being housed in rented buildings having moved several times in the past.

With the organization's own orphanage for the girls, like the boys in Mahendranagar at Amor Children's Home, the upbringing will be more systematic, secured, and child friendly.

Girl's Orphanage – Project Update

The construction is being undertaken in phases on receipt of funds and donations. Till date, structural skeleton is completed for the ground floor. The RCC of the first floor is being scheduled to be complete within a month.

The following is a phase-wise update on the major milestones:

Date	Status	Remarks
Aug 2004		Excavation for Foundation
Sep 2004		Laying the Foundation RCC

<p>Sep 2004</p>		<p>Laying the Foundation RCC</p>
